

Programs Used for Data-Driven Instruction

Reading Eggs (<http://readingeggs.com/>)

Reading Eggs makes learning to read interesting and engaging for kids, with great online reading games and activities.

Imagine Learning (<http://www.imaginelearning.com/>)

Imagine Learning uses videos, stories, songs, conversations, games, art projects, and recordings to engage young learners. Step-by-step, your child will learn common English words, phrases, and sentences, while experiencing the rhythm, cadence, and sequence of the English language. Reading Eggs is full of educationally sound, fun and interactive activities that focus on the most fundamental skill needed in school: reading. The program makes learning phonics and basic reading skills a truly enjoyable experience. Children from 3 to 7 years of age, or older, who are struggling with reading, will enjoy the huge variety of reading lessons, activities and games that make up Reading Eggs.

Mindplay (<http://www.mindplay.com/>)

MindPlay Virtual Reading Coach is beneficial to students within a wide range of proficiency levels. MVRC is highly appropriate for Struggling Readers, English Language Learners, Teen and Adult Learners and Accelerated Learners.

iReady (<https://learn.i-ready.com/>)

Based on the results of the i-Ready Diagnostic, students are automatically placed into student instruction customized to their placement level. These online lessons provide a consistent best-practice lesson structure and build conceptual understanding, in addition to being engaging and fun for learners of all levels.

Maths Whizz (<http://www.whizz.com/en-us/>)

"Maths-Whizz is an online virtual mathematics tutor for kids that caters to your child's unique ability – helping them reach their true potential and preparing them for success in school. As an alternative to a private tutor, it is designed to simulate the behaviour of a human tutor. It never gets bored or frustrated and never judges your child. It just delivers the ideal lesson to progress your child's learning ability. That's why Maths-Whizz is the multi-award-winning, industry leading online mathematics tutor."

ALEKS (<http://www.aleks.com/>)

Assessment and LEarning in Knowledge Spaces is a Web-based, artificially intelligent assessment and learning system. ALEKS uses adaptive questioning to quickly and accurately determine exactly what a student knows and doesn't know in a course. ALEKS then instructs the student on the topics she is most ready to learn.

USATestPrep (<https://www.usatestprep.com/Online-Review>)

USATestPrep is a teacher-directed learning resource that empowers teachers to develop diagnostic and remedial strategies to support individual students and the classroom as a whole.
